

Fast TV Network News

The latest episode of “Legends of Route 66” is now streaming on Fast TV Network. Featured in this episode is the awesome history of the Enchanted Trails RV Park and Trading Post and

Loyola’s Family Restaurant. Also included is the newly renovated hip sensation, Hotel Zazz and finished results of the Monterey Motel’s transformation!

You guessed it, this episode is all about Route 66 through Albuquerque!

To add to the fun, our hostess of Legends of Route 66 and New Mexico Route 66 Association President, Melissa Lea, takes us along with her to the Route 66 Road Ahead Partnership meeting taking place at the El Vado Conference Center. The meetings focus on various activities leading up to and beyond the Mother Roads Centennial in 2026. During breaks Melissa sits down with some of her fellow board members and attendees to chat.

In addition to meetings, we go on a fantastic tour of Glorieta Station – a 200,000 square foot facility, once a Coors distribution center, housing a private collection of neon signs, tractors, Unser Family memorabilia, and more! The neon sign collection is regarded as one of the premier collections in the country.

Fast TV Network Studios Carrizozo is coming along nicely. Fast TV Network Studios Tucumcari and the New Mexico Route 66 Association Museum and Visitor Center have been delayed for months. We will finally have some good news to report in November.

Fast TV Network is available on Roku, Amazon Fire TV and online at [Fast TV Network.com](http://FastTVNetwork.com).
